DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Joanna K. Mason on October 10, 2006.

The application has been amended as follows:

In the Claims

In claim 1 line 3, 'greater than 150' has been replaced with -- greater than 200 --.

In claim 2 line 2, 'greater than 150 wt. ppm' has been replaced with -- greater than 200 wt. ppm--.

In claim 15 line 8, 'greater than 150 wt. ppm' has been replaced with -- greater than 200 wt. ppm --.

Allowable Subject Matter

Claims 1-4,11,12,15,18-22 and 25-27 are allowed over the prior art of Record.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1 and 15 the prior art of record neither teaches nor suggests the protective film of a plasma display panel with claimed combination of limitations and particularly the limitation comprising silicon in the amount of less than 500 wt. ppm and greater than 200 wt. ppm added to the main component of magnesium oxide.

Claims 2-4, 11, 12, 21 and 22 are allowed for the reason stated for claim 1 because of their dependency status from claim 1.

Claims 18-20, 25 and 26 are allowable for the reasons given in claim 15 because of their dependency status from claim 15.

Regarding claim 27 the prior art of record neither teaches nor renders obvious the protective film of a plasma display panel comprising magnesium oxide having about 300 wt. ppm of silicon.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
